EXPERIENCE

Hot Joy, 1014 s alamo — *Tiki Bartender*

Jan 03 2020 - PRESENT

At hot joy we are all about being fun people. It's a laid
Back atmosphere with a quality product and an emphasis
On hospitality.

Feast, s. alamo — *Server*

NOVEMBER 2019 - JAN 2020

I worked at Feast for only a little while. They shut their doors
January 1st. But it was basically a more stiff version of Hot Joy.

Santikos Embassy, 281 & bitters — *Bartender*

APRIL 2019 - NOVEMBER 2019

I love the movie theater, movies popcorn and cold a.c.
They asked me to come work with them in there classic
cocktail bar. Naturally I jumped on that opportunity. But
Unfortunately the theater was a tad too far from home and
Made child care a bit difficult so we parted ways.

EDUCATION

UTSA, virtual — *certificate*

July 2020 - present

I am currently attending a six month coding bootcamp.
Software development is one of my passions. So finally
I'm diving in headfirst. It's a little tuff kinda like trying
To chug a bucket of water without spilling anything. But i look
Forward to the future.

High school , san antonio — *high school diploma*

GRADUATED 2003

Not much to say here, i went to school on the northeast side
Of san antonio. I slogged through it until one day it was over.

SKILLS

Film maker, video editor and
photographer. I do freelance
work in that field on the side. I
recently (past 3 months or so)
started touch typing. I can do
around 40 words per minute.
(up from 12 lol) so i'm
constantly practicing that in
my free time. Hopefully soon
software development will be
a skill for now it's a learning
process.

PROJECTS

Currently I'm working on a
number of websites. One for
my personal portfolio. One for
my girlfriend's business and
another for the company i
currently work for Empty
stomach.
